PROFILE

Final-year Computer Engineering student with over 2 years of experience in full-stack development, with a strong focus on Python and AI/ML technologies. Proficient in building and designing RESTful APIs, and implementing secure user authentication. Experienced in Artificial Intelligence and Machine Learning, including NLP, AI Agent Design, Prompt Engineering, and LLM behavior tuning. Skilled in database management with MySQL, SQLite, and MongoDB, along with frontend development using React.js. Analytical thinker and fast learner, passionate about developing intelligent, user-centric, and scalable digital products.

PROJECTS

One Webbers – Service-Based Startup Landing Page

Live: <https://one-webber.vercel.app/>

- ❖ Designed and developed a high-performance, SEO-optimized landing page using Next.js and React.js.
 - ❖ Implemented Server-Side Rendering (SSR) and performance optimization techniques to improve page load speed and search engine visibility.
 - ❖ Integrated advanced UI animations using GSAP and Framer Motion to enhance user interaction and engagement.
 - ❖ Specifically designed and optimized the platform for laptops and desktop devices, focusing on wide-screen layouts and smooth visual transitions.
 - ❖ Ensured responsive structure, cross-browser compatibility, and maintainable code standards.
- Tech Stack:** Next.js, React.js, JavaScript (ES6+), GSAP, Framer Motion, HTML5, CSS3

Bhukkad – Food Ordering Web Application

- ❖ Developed a full-stack food ordering web application using **Next.js** for a fast, SEO-optimized frontend and **Node.js** with **MongoDB** for scalable backend and database management.
 - ❖ Designed and implemented secure **JWT-based authentication** for user registration and login functionality.
 - ❖ Built a **role-based admin panel** to efficiently manage users, menu items, and orders.
 - ❖ Integrated real-time order status updates to improve user experience and operational tracking.
 - ❖ Developed a responsive and modern UI using **Tailwind CSS**, ensuring cross-device compatibility and performance optimization.
- Tech Stack:** Next.js, Node.js, MongoDB, JavaScript (ES6+), Tailwind CSS, JWT Authentication

Chattrio – Real-Time Chat Application

- ❖ Built a real-time chat platform enabling instant messaging with Socket.io for seamless, bidirectional communication.
- ❖ Designed secure user authentication (JWT-based) with session handling for private and group chats.
- ❖ Implemented MongoDB as a database for storing user profiles, conversations, and message history.
- ❖ Developed a responsive frontend in Next.js + TailwindCSS, ensuring smooth performance across devices.
- ❖ Added features like online/offline status, typing indicators, and message timestamps for an engaging user experience.

Tech Stack: Next.js, MongoDB, Socket.io, Node.js, TailwindCSS

SKILLS

- ❖ **Programming Languages-** Python, JavaScript, PHP, C++, C, SQL, HTML5, CSS3
- ❖ **Frameworks & Libraries-** Laravel, React.js, Inertia.js, Django, Blade
- ❖ **Full-Stack Development-** MVC Architecture, RESTful API Development, CRUD Operations, User Authentication, SPA Development
- ❖ **AI & Machine Learning-** Natural Language Processing (NLP), AI Agent Design, Prompt Engineering, LLM Behavior Tuning, IBM Watsonx
- ❖ **Databases-** MySQL, SQLite, MongoDB, SQL Database Design
- ❖ **DevOps & Deployment-** Web Hosting (Hostinger), Application Deployment, SEO Optimization
- ❖ **Tools & Version Control-** Git, GitHub, Figma

LEADERSHIP & ACTIVITIES

Member – Software Development Cell (SDC)

Government College of Engineering, Jalgaon | Oct 2024 – Present

Contributed to multiple college-level development projects including full-stack solutions and UI design. • Participated in code reviews, tech discussions, and database architecture planning.

Smart India Hackathon (Internal Hackathon Winner)

- Led a team to develop an **innovative full-stack solution** addressing a real-world problem statement as part of the **Smart India Hackathon (Internal Round)**.
- Leveraged **Blender** to create **real-time 3D assets and interactive visuals**, enhancing the presentation and overall impact of the solution.
- Coordinated team tasks, guided technical decision-making, and ensured timely delivery of project milestones.
- Recognized as **Internal Hackathon Winner**, selected among top teams for innovation, technical depth, and presentation quality.

EDUCATION

B.Tech, Computer Engineering

Government College of Engineering, Jalgaon

Jalgaon, Maharashtra

Nov, 2022- Present Current

HSC – Science Stream (H.S.C)

DR. Ambedkar College

Nagpur, Maharashtra

July, 2020- Apr, 2022
